

Thursday 11th January, 2024.

Dear Parents/Carers,

As I am sure you are already aware, we use a platform in school called **Class Dojo** as our classroom management system for the children to collect their 'dojos' (rewards) linked to our school values. The children all have their own 'monster avatar' and can see the dojos they have earned.

This platform also offers a safe way for teachers to communicate with the children in their class, set tasks for in school or at home and provide a way for the children to upload videos, photos and learning they would like to share with their teacher.

As a school we would like to transition from SeeSaw to this platform at home and in school. The children will be given their own login so they will have their own account and be able to access their avatar and share any home learning they have completed or achievements from outside of school.

Class teachers will be doing a tutorial with the children in class to show them how to access and use the platform but please could I ask for a parent or carer to be present with the child when it comes to logging in for the first time at home.

The children will come home with their log in QR codes this week. I would appreciate it if you could find 5 minutes to sit down with your child to help them set up their account.

We hope you and your child enjoy exploring this platform together.

Thank you for your support.

Kind regards,

Miss Iruskieta
