Whole School Enrichment Events

Dear Parents and Carers,

As a school, we are committed to providing children with a rich and varied range of learning experiences beyond the classroom. Throughout the year, we carefully plan a number of special enrichment opportunities that all children can enjoy. These experiences are always well received and help to bring learning to life in fun, meaningful and memorable ways.

Alongside our curriculum, we have a variety of exciting events planned for both the whole school and specific year groups. Examples include:

- Watching a professional ballet performance
- A storyteller visit for all children
- Little City experiences during Aspirations Week
- Happy Chicks workshops
- Interactive science workshops
- Gemma's Farm visits

These are just some of the many enrichment opportunities we aim to provide, helping to broaden children's experiences, inspire curiosity and create lasting memories.

Many of these events involve additional costs and, as school budgets continue to face increasing pressures, it is becoming more challenging to fund them entirely from existing resources. To help us continue offering these valuable experiences to all children, we are inviting voluntary parental contributions.

You may choose to make either a termly donation or a single contribution for the academic year. We kindly suggest the following contributions:

Nursery, Reception and Year 1: Termly Payments of £3 or a £9 payment for the year.

- Chicks £3
- Science Workshops £3
- Gemma's Farm £3

Year 2: Termly payments of £4 or a £12 payment for the year.

- Chicks £3
- Science Workshops £3
- Gemma's Farm £3
- Mini-First Aid Workshop £3

Please make your contributions via your Arbor account, a step-by-step guide can be found on the email with this letter.

Thank you for your continued support around ensuring that we can still provide the children with these valuable experiences.

Kind regards,

Mrs Vicki Tracy
Vice Principal
