

Thursday 9th November 2023

RMeasimaths™

Dear Parent/Carer,

This week your child will be coming home with a login to a Maths resource called RM EasiMaths.

This app is to support your child with their Maths learning and is designed to be personalised to their individual needs. Just one hour a week will progress their skills and overall learning of core Mathematical skills. The app allows the children to work independently and your child will receive rewards through the app once they have mastered new skills.

We hope you can support us,

Thank you.

Miss Goodman
